INTRODUCTION

This is one of four reports containing reference maps for the Provincial Census Tracts of the 1976 Census. It accompanies one of the four regional reports presenting population, housing, household, family and labour force data by Provincial Census Tract. The corresponding bulletins are: Catalogue Nos. 95-850 and 95-851, Atlantic Provinces; 95-852 and 95-853, Quebec; 95-854 and 95-855, Ontario; 95-856 and 95-857, Western Provinces and the Territories.

The index map, illustrating the 1:500,000 National Topographic System (NTS) permits users to geographically locate individual maps, as each reference map is identified according to its NTS number. For the 1:500,000 NTS series each numeric identifier is broken down into four, i.e., North-West, North-East, South-West and South-East.

In the case of 95-851 "Atlantic Provinces" and 95-857 "Western Provinces and the Territories" the maps have been grouped by province.

Owing to the small scale of these maps it is not possible to show the limits of some PCTs and they have been grouped with other PCTs. Maps of these PCTs will be available to users on demand, by contacting Census Information Services (see back cover).

DEFINITIONS

Reference Map: A map which identifies and locates the boundaries of geostatistical areas.

Province: Major political division of Canada. From a statistical point of view, it is a basic unit for which data are tabulated and cross-classified. There are ten provinces which are divided into federal electoral districts, census divisions, census subdivisions, etc. In census publications, provincial tables include the Yukon and Northwest Territories.

Provincial Census Tract (PCT): Permanent small census geostatistical area of rural and/or urban type. PCTs exist in the areas that are not included in the Census Tract Programme. There are about 1,700 PCTs delineated across Canada. Populations of PCTs generally vary between 3,000 and 8,000 with a preferred average of 5,000. Boundaries, as much as possible, follow permanent physical features and/or geographical units suggested by the provinces.

Ce bulletin fait partie d'une série de quatre publications renfermant des cartes de référence pour les secteurs de recensement provinciaux du recensement de 1976. Il complète l'un des quatre bulletins régionaux qui présentent des données sur la population, le logement, les ménages, les familles et la population active par secteur de recensement provincial. Les bulletins correspondants sont: n° 95-850 et 95-851 au catalogue, provinces de l'Atlantique; 95-852 et 95-853, Québec; 95-854 et 95-855, Ontario; 95-856 et 95-857, provinces de l'Ouest et les Territoires.

La carte-index, qui illustre l'échelle 1:500,000 du Système national de référence cartographique (SNRC), permet aux utilisateurs de situer géographiquement chaque carte de référence grâce au numéro SNRC qui l'identifie. Pour la série 1:500,000 SNRC, chaque identification numérique est divisée en quatre c'est-à-dire Nord-Ouest, Nord-Est, Sud-Ouest et Sud-Est.

Les bulletins n° 95-851 "Provinces de l'Atlantique" et n° 95-857 "Provinces de l'Ouest et les Territoires" présentent les cartes groupées par province.

En raison de l'échelle réduite de ces cartes, il n'a pas été possible d'indiquer les limites de certains SRP qui ont dû être groupés avec d'autres SRP. Les utilisateurs pourront se procurer les cartes de ces SRP auprès d'Information recensement (voir la couverture arrière).

DÉFINITIONS

Carte de référence: Carte qui délimite les unités géostatistiques.

Province: Principale division politique du Canada. Du point de vue statistique, c'est une unité de base pour laquelle toutes les données sont totalisées et recoupées. Il y a dix provinces, divisées en circonscriptions électorales fédérales, en divisions de recensement, en subdivisions de recensement, etc. Dans les publications du recensement, les tableaux relatifs aux provinces comprennent le Yukon et les Territoires du Nord-Ouest.

Secteur de recensement provincial (SRP): Petite unité géostatistique permanente de type rural et(ou) urbain. Les SRP existent dans les régions qui ne font pas partie du programme des secteurs de recensement. Le Canada compte environ 1,700 SRP. Leur population varie généralement entre 3,000 et 8,000 habitants, la moyenne devant être de préférence 5,000 habitants. Dans la mesure du possible, leurs limites coïncident avec des caractéristiques physiques permanentes et(ou) avec des unités géographiques proposées par les provinces.

Publications of the 1976 Census of Canada

This bulletin is one of a series of volume reports of the 1976 Censuses of Population, Housing and Agriculture.

Most of the bulletins in the regular Volume Series are data-oriented. Other reports containing more methodological, interpretative and evaluative content, are also issued. These are as follows:¹

- (a) 1976 Census Administrative Report
- (b) 1976 Census Quality of Data Series
- (c) 1976 Census Research Series
- (d) Introductory Reports to each of the regular Volume Series.

Also available on request is a series of Reference Lists developed largely for internal verification of basic geographical and population hierarchies, which could provide useful information to the outside user.

Users will note that the majority of census publications are colour-coded to identify with the four themes central to the presentation and to maintain comparability with the 1971 series, e.g., blue for Geographical and Demographic content, brown for Housing, Household and Family data, red for Economic Characteristics and gold for the series based on Agriculture.

These reports are listed in the *1976 Census Catalogue*, which can be obtained free of charge from:

Publications Distribution,
Room 1200, Statistics Canada,
Ottawa, Ontario.
K1A 0T6

To order **census publications**, send a cheque or money order made payable to the Receiver General for Canada, to the above address.

In addition to published documents, the Census of Canada can provide **other products and services** about census: data on microform (film or fiche), computer tapes, computer print-outs, user-specified tables, maps, geographic files, geographic lists, etc.

For information write:

Census Information Services,
Statistics Canada,
Ottawa, Ontario.
K1A 0T7

or call (613) 996-5254.

Inquiries about census and other **Statistics Canada information** can also be directed to Statistics Canada Regional Offices located in: St. John's (Nfld.), Halifax, Montréal, Ottawa, Toronto, Winnipeg, Regina, Edmonton and Vancouver.

¹ It should be noted that these publications are generally released somewhat later than the data reports.

Publications du recensement du Canada de 1976

Ce bulletin fait partie de la série des publications des recensements de 1976 de la population, du logement et de l'agriculture.

La plupart des bulletins de la série ordinaire des volumes présentent des données. On publie également d'autres bulletins dont le contenu vise plutôt la méthodologie, l'interprétation et l'évaluation. Ces bulletins sont les suivants¹:

- a) Rapport administratif du recensement de 1976
- b) Série relative à la qualité des données du recensement de 1976
- c) Série du recensement de 1976 relative à la recherche
- d) Introductions à chacune des séries ordinaires des volumes.

Vous pouvez aussi vous procurer sur demande une série de Listes de référence, servant surtout à la vérification interne des catégories géographiques et démographiques de base, qui pourraient fournir des renseignements utiles aux utilisateurs à l'extérieur de Statistique Canada.

Les utilisateurs constateront que la plupart des publications du recensement sont classées par couleur, chaque couleur correspondant à l'un des quatre thèmes du recensement; cela permet d'assurer la comparabilité avec les séries de 1971; ainsi, le bleu est réservé aux publications de nature géographique et démographique, le brun, aux bulletins sur le logement, les ménages et les familles, le rouge, aux publications de nature économique et la couleur or, à la série relative à l'agriculture.

Ces bulletins figurent au *Catalogue du recensement de 1976* que vous pouvez obtenir gratuitement auprès de:

Distribution des publications
Pièce 1200, Statistique Canada
Ottawa (Ontario)
K1A 0T6

Envoyez vos commandes de **publications du recensement** à cette même adresse en y joignant un chèque ou un mandat postal à l'ordre du Receveur général du Canada.

Outre les publications, le Recensement du Canada offre divers **autres produits et services**: données en microcopie (film ou fiche), bandes pour ordinateurs, états mécanographiés, totalisations spéciales, cartes, fichiers et listes géographiques, etc.

Pour obtenir des renseignements, écrivez à:

Information recensement
Statistique Canada
Ottawa (Ontario)
K1A 0T7

ou téléphonez au numéro (613) 996-5254.

Toute **demande de renseignement** sur le recensement et les autres **données de Statistique Canada** peut également être transmise aux bureaux régionaux de Statistique Canada situés à St. John's (T.-N.), Halifax, Montréal, Ottawa, Toronto, Winnipeg, Regina, Edmonton et Vancouver.

¹ Il convient de remarquer que ces bulletins sont généralement publiés quelque temps après les bulletins présentant des données.
